

Jump'In Création, or how to successfully launch your startup...

If you have an innovative project related to health, digital technologies, or the environment, Jump'In Création was made for you!

Jump'In Création, what is it?

5 weeks to challenge your project and build your network!

A program created by Montpellier BIC that alternates between group workshops and individual meetings with innovation experts

Conditions to benefit from this program

Have an **Innovative project**

Be selected by Montpellier BIC

Be **motivated** and **have time** to focus on your project

Challenging every aspect of your project!

A full range of topics is covered to help you succeed: business model, value proposal, sales strategy, pitch, project management, communication, funding, intellectual protection, legal aspects, and more.

By participating in Jump'In Création, chosen entrepreneurs benefit from:

Nothing will ever be the same!

Participating in Jump'In Création is your way to become part of a dynamic ecosystem with privileged access to BIC services...

Group sessions and one-on-one time give you all the keys to get your company started under the best possible conditions!

Many have taken this road...

Launched in 1996 and co-funded by Montpellier Méditerranée Métropole, the European Union, "L'Europe s'engage in Région" (via the European Social Fund), and the Occitanie Region, the program has seen **the beginnings of some great success stories...**
