MONTPELLIER BIC CREATING INNOVATIVE COMPANIES

INSTITUTIONS & PROJETS - Montpellier Méditerranée Métropole - Direction de la communication - 09/2018

bic.montpellier3m.fr

bic.montpellier3m.fr

"A pioneer for technology incubation in France and Europe, Montpellier BIC has received numerous awards for its assistance programs and tools for startups. In 2018, Montpellier BIC was listed as the second leading incubator worldwide in the UBI Global ranking, and is still the only French incubator present in that prestigious Top 10 reference.

Dedicated to young companies with high growth potential, Montpellier BIC has offered high-level technical expertise for more than 30 years to help startups succeed, notably leveraging its Cap Alpha and Cap Omega incubators and MIBI international office center. Programs include development strategy coaching, fund-raising assistance, and introduction to business networks, all of which have supported the emergence of many hi-tech champions in our area.

Some of those budding startups became international success stories, such as Techsia (now Schlumberger), AwoX, Medtech (acquired by Zimmer Biomet), SMAG Group, Aquafadas (subsidiary of Rakuten), Tageos, Deinove, Medincell, OCEASOFT, and, more recently, BIME Zendesk, Teads, Scimob, Sensorion, Pradeo, Matooma, Codingame and many others.

With over 670 companies founded and nearly 5,000 jobs created, Montpellier BIC remains focused on promoting Montpellier's excellence throughout the world, continuing to drive innovation as a key axis to develop the territory's economy and support job creation."
